### DETAILED ACTION

Claims 7 – 16 are in condition for allowance.

The allowed claims effectively represent an election by original presentation with respect to newly presented apparatus claims 17-29 which claim a different subcombination of features (varying intensity driving signal generator control with scan sequencing dependent upon contrast agent saturation).

Applicant is extended a TWO MONTH period in which to cancel the claims 17-29 or to petition under 37CFR1.144 the holding by the Examiner that an election by original presentation holding is proper.
